

# Integer Bingo

## Directions:

1. Pass out blank Bingo cards and have each student fill in the blanks with integers ranging from -20 to +20.
2. Cut out the Bingo cards and mix them up in a bag or other container
3. Draw out a card and call the problem
4. Students use chips or torn papers to cover up answers as they are called

## Game Variations:

1. Black Out (Must cover all squares)
2. Four Corners
3. Big X (Must cover all boxes in a double diagonal)
4. Four in a Box (Any four squares that form a box)
5. Big T (Top horizontal row and all of the N row)
